

September - 2013

- Jodie and Julia spent a morning under the Menai Bridge discussing Brown crab with Bethan Wyn Jones, who writes for the Daily Post - to read the article [click here](#).
- [On-board camera update bulletin](#)
- **Preliminary results** now available from this summer's sea bass sampling programme, [Report 26](#).
- Follow us on [Facebook](#) to see our latest photos and updates
- Take a look at Seafish Wales first [E-newsletter](#)
- We would like to welcome **Isobel Bloor** and **Sam Dignan** to the team. Isobel is our new post-doctoral research scientist and Sam is our new post-graduate research assistant. They will be conducting the fisheries research for the IOM.
- The annual **Isle of Man (IOM) scallop stock assessment survey** is scheduled for 26th September.
- Part 1 of the **English Channel scallop habitat and stock assessment survey** has been completed in the Eastern part of the channel. From the 17th September part 2 will begin focusing on the Western half of the channel. Please take a look at the [Seafish article](#).
- Feedback from this summer's **Welsh scallop stock assessment survey** now available - [click here](#)
- Juvenile crab and lobster habitat studies underway. Footage from the **drop down camera** available [here](#).
- **Lobster escape gap** trials underway. Preliminary results available in the next few months. For more information [click here](#).
- **Fishing intensity trial** in Cardigan Bay planned for April 2014.
- Thanks to our new fish merchants [Tucker's Fresh Fish](#) & [Coakely-Greene](#), in Swansea Market for their help providing samples.
