

BRIDGING THE GAP: FISHERS' KNOWLEDGE QUESTIONNAIRE

PRIFYSGOL
BANGOR
UNIVERSITY

The EFF project “**Sustainable Use of Fisheries Resources in Welsh Waters**” wants to hear from you!

- We need your knowledge to inform our science to promote a more profitable future for the fishing industry in Wales.
- The knowledge we collect will be an invaluable future resource for Welsh fishermen—it’s your knowledge, you own it.
- It will provide an objective evidence resource of the extent and pattern of fishing activities in Wales.
- It will provide evidence that will be needed to minimise the impact of future EU legislation and will help the industry defend itself from competing activities.

Expect to hear from us soon and if you are interested in participating or want more information please contact **Julia Pantin** at **j.pantin@bangor.ac.uk** or **01248 382607 / 07938010281**.

By participating your name will be put into a draw for a subscription to [Fishing News](#) or a new pair of Guy Cotton Bib and Brace Trousers.
